WE
CHOOSE
FROM
STOCKS OF
THE TOP 500
COMPANIES
ON THE
TOKYO
STOCK
EXCHANGE?

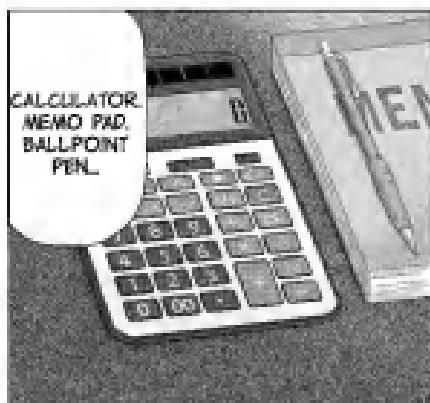

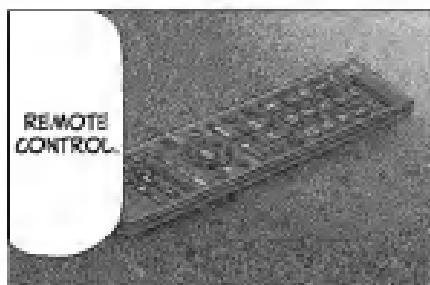

認定総額

100兆円

WE TRY
TO YIELD AN
AGGREGATE
MARKET
VALUE TOTAL
AS CLOSE TO
100 TRILLION
YEN AS
POSSIBLE!

IS THIS
GOING
TO BE?

WHAT
KIND OF
MATCH.

THE LARGE SCREEN MONITOR HERE CAN DISPLAY 500 COMPANIES ON THE STOCK MARKET.

EACH SCREEN SHOWS 50 COMPANIES IN COLUMNS OF TEN.

I SEE...

SHINJI-SAMA, YOU HAVE THE RIGHT TO CHOOSE ONE COMPANY OUT OF THESE.

...AND THE PLAYER GOES ON TO ADD THE AGGREGATE MARKET VALUE OF THE COMPANY...

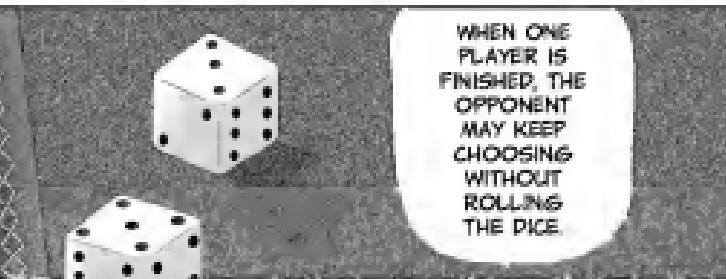

WITH ONE ROLL OF THE DICE, THE WINNER GETS TO CHOOSE ONE COMPANY...

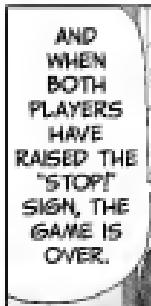

THE FINISHED PLAYER WILL WAIT FOR HIS OPPONENT.

WHEN THE PLAYER SAYS "STOP," THE GAME IS FINISHED FOR THAT PLAYER.

WHEN ONE PLAYER IS FINISHED, THE OPPONENT MAY KEEP CHOOSING WITHOUT ROLLING THE DICE.

AND WHEN BOTH PLAYERS HAVE RAISED THE "STOP" SIGN, THE GAME IS OVER.

WHEN HE JUGES THE VALUE HAS REACHED 100 TRILLION, HE WILL RAISE THE "STOP" SIGN.

STOP!

UML I
HAVE A
QUESTION.

THE
RULES
ARE SO
SIMPLE.

HE WILL
LOSE.

IF A
PLAYER
GOES EVEN
ONE YEN
OVER,
HE IS DIS-
QUALIFIED!

THAT IS
CORRECT.

BUT IT'S
OKAY IF
THE VALUE
IS LESS?

SO THE
PLAYER
WILL HAVE
TO SIT
OUT ONE
ROUND.

IF A PLAYER GOES
OVER THE TIME
LIMIT, HE WILL
LOSE HIS RIGHT
TO CHOOSE, AND
WILL PAY THE
PENALTY OF
HAVING TO GIVE
THE RIGHT OVER
TO HIS OPPONENT
FOR ONE ROUND.

ARE BOTH
OF YOU
READY?

THIS
CONCLUDES
THE
EXPLANATION
OF THE
RULES.

YES.

IT'D BE
DIFFICULT
EVEN FOR A
VETERAN IN
THE STOCK
MARKET.

SOUNDS LIKE
A SIMPLE
GAME, BUT
IT'S ACTUALLY
QUITE A
HIGH-LEVEL
COMPETITION.

HE'D
BETTER KEEP
WINNING,
OR ELSE
HE'LL NEVER
REACH 100
TRILLION
YEN.

THE
AGGREGATE
VALUE OF 2,000
COMPANIES ON
THE TOKYO
STOCK
EXCHANGE IS
APPROXIMATELY
100 TRILLION
YEN.

HE'S GOT
NO TIME TO
CONSIDER
HIS PICKS,
EITHER.
ONE MINUTE
IS TOO
SHORT.

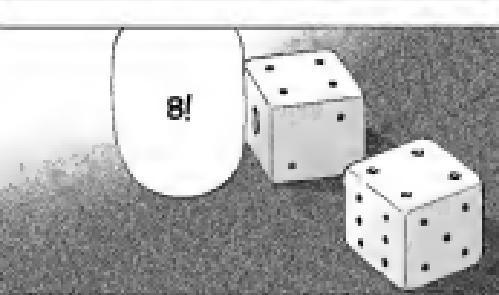

IF 100
TRILLION YEN
IS DIVIDED BY
2,000
COMPANIES,
THAT'D BE
250 BILLION
YEN PER
COMPANY.

ZAIEN.
I HOPE HE
CAN HANDLE
THE BATTLE
TO THE
VERY END.

IT'S A TOUGH
BATTLE OF
MEMORY
RECALL AND
JUDGMENT.

TOYOTA IS
NUMBER ONE IN
AGGREGATE
VALUE. I THINK
IT'S AROUND
29 TRILLION
YEN!

6666
7777
8888

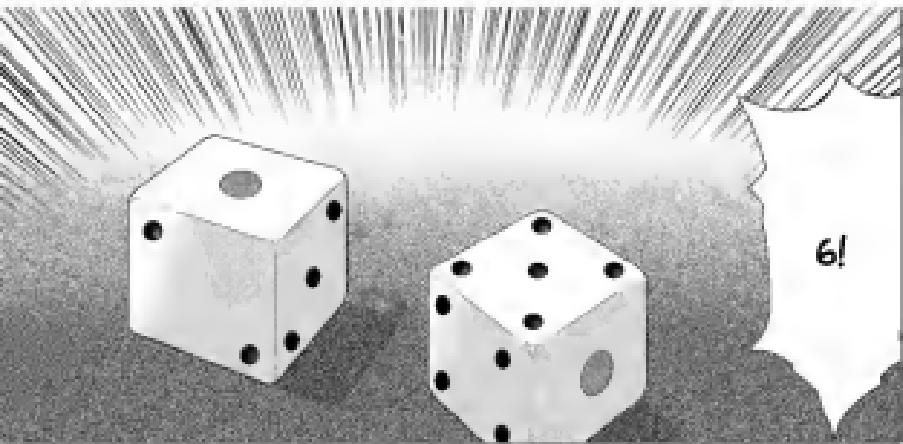

7777
6666

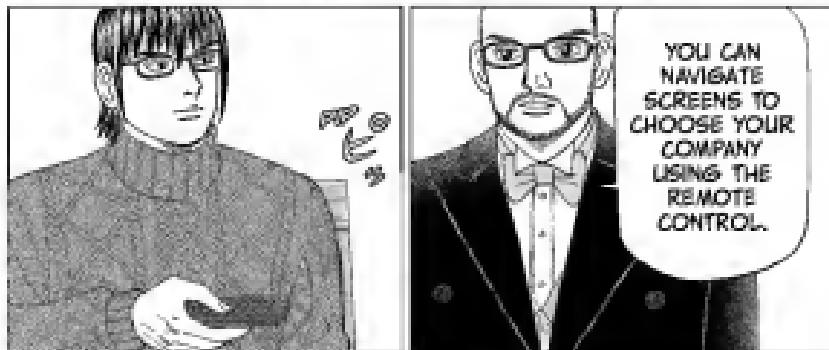

IF I ROLL
OVER 8, I'LL
CHOOSE
TOYOTA
MOTORS
FIRST.

SO I HAVE
TO ROLL A
9 OR
BETTER!

IF I CAN SECURE
A QUARTER OF
THE 100 TRILLION,
MY GAME PLAN
WILL GO
SMOOTHLY!
